**Red = Bleed Area**  
Drag all background images or colors out to this area - this area will fall off the artboard when you add it to the design tool but will get printed.

Adding bleed assures that you will not have any white lines around the sides after your product is trimmed down to the final size.

**Yellow = Trim Area**  
The final product size; the page will be trimmed around the outer border of the yellow box.

**Green = Safe Area**  
Place any important information within this area to ensure nothing gets cut off.
