

# Canva® Size, Bleed & Files

See below for the steps on choosing your product size, adding bleed and saving a print-ready PDF in Canva. For a more detailed explanation, [watch the short video here!](#)

## 1 Choosing Your Product & Size

### 1a Option 1: Choose a product from the list

\*Mouse over each product to see the final print size.

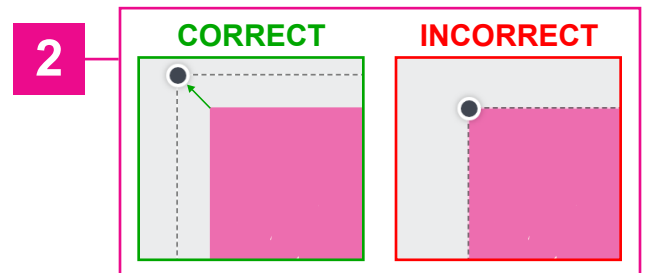

### 1b Option 2: Use custom dimensions

\*Enter your final print size - make sure the unit is set to inches (in).

## 2 Adding Bleed to Your Design

- In your design, extend your background images and colors slightly past the canvas ON ALL SIDES. For more details on adding bleed, [click here to watch the video.](#)

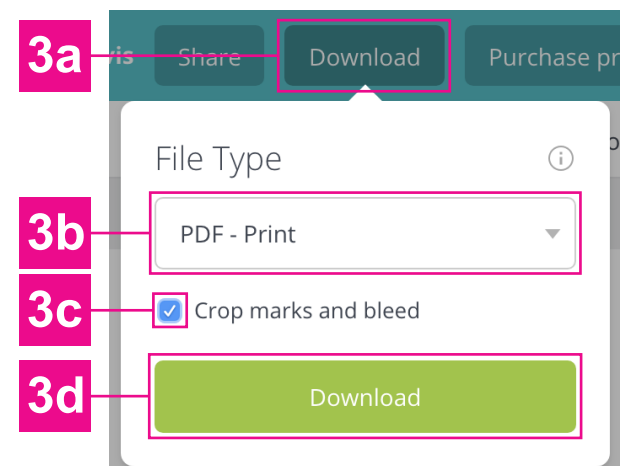

## 3 Saving Your Print-Ready PDF

### 3a When finished with your design, click: [Download](#) on the top navigation bar.

### 3b Under File Type, choose: [PDF - Print](#)

### 3c Check: [Crop marks and bleed](#) checkbox

### 3d Click: [Download](#)
